

# Miss Mangam Is Engaged to Mr. Maxwell

Mr. and Mrs. McCrea to Give Dinner To-night for Miss Dunlop, Who Will Marry Mr. W. S. Gray Jr.

Pavenstedts Are Hosts

Mr. and Mrs. Child Return From California; Mrs. Hazard Gives Luncheon

Mrs. Daniel E. Mangam, of 43 East Fifty-eighth Street, has announced the engagement of her daughter, Miss Genie M. Mangam, to Mr. John Courtlandt Maxwell, son of Mrs. Charles V. Maxwell, of this city. Miss Mangam is a graduate of Miss Porter's School, Farmington, Conn., and is a member of the Junior League. She is a granddaughter of the late Rev. T. de Witt Talmage. Mr. Maxwell is a member of the class of '19 at Princeton. He served in the navy during the war. No date has been set for the wedding.

Mr. and Mrs. Archibald M. McCrea were a dinner to-night at Pierre's for Mrs. McCrea's daughter, Miss Agnes Margaret Dunlop, who is to be married to Mr. William St. John Gray Jr. on Thursday, in St. Thomas's Church. The guests will number about forty.

Mr. and Mrs. Adolf Pavenstedt gave a dinner last night at the Hotel St. Regis. Their guests included Mr. and Mrs. Orme Wilton, Mr. and Mrs. C. M. Putnam and Mr. McDougall Hawkes.

Mr. and Mrs. Child Return East. Mr. and Mrs. Child, of Santa Barbara, Calif., have returned East and are visiting friends on Long Island. They have taken an apartment for the winter at the Plaza, which they will occupy at the end of the month. Mrs. Child gave a luncheon at the Plaza yesterday for the Duke and Duchess de Talleyrand. The other guests included her niece, Mrs. Peter Cooper Bryce, Dr. and Mrs. Preston Pope Satterwhite, Mr. and Mrs. C. M. Gilbert and Mr. Archibald M. McCrea.

Mrs. Rowland G. Hazard gave a luncheon yesterday at Pierre's for Mrs. R. H. L. Goddard and Mrs. Bayard C. Hoppin.

Others who entertained there were Mrs. Pierce Butler, Mrs. John Munroe and Mrs. Eugene S. Reynold.

Mr. and Mrs. James N. Wallace gave a dinner last night at Pierre's for Mr. and Mrs. Archibald M. McCrea.

Mrs. Spencer Eddy entertained at luncheon yesterday at Sherry's for Mrs. Marshall Field, Mrs. Goodhue Livingston and gave a luncheon yesterday at Sherry's.

Mrs. Charles Steele entertained at luncheon yesterday at Delmonico's.

Mr. and Mrs. Carroll I. Wainwright gave a luncheon yesterday at the Ritz-Carlton.

Mrs. W. Bourke Cockran gave a luncheon yesterday at the Marguery. Mrs. Reginald de Koven, who recently returned from Europe, also gave a luncheon yesterday at the Marguery for her daughter, Mrs. H. Kierstead Hudson. Others who entertained there were Mr. and Mrs. Thomas Hastings and Mrs. Sherwood Aldrich.

Mr. and Mrs. John North Willis gave a luncheon on Sunday at Northcliff, their country home at Oyster Bay, for Mrs. William Letts.

Mr. and Mrs. George D. Widener have gone to Philadelphia for the wedding of Miss Alberta Pancost Reath to Mr. Harry B. Neilson. The guests there were of Mrs. Joseph E. Widener.

Miss Charity Crocker, who passed the week end with her parents, Mr. and Mrs. Frank Longfellow Crocker, at 123 East Seventy-third Street, returned to Nassau yesterday.

## Society Notes

Mr. and Mrs. Witherbee Black have returned to the city and are at the Hotel Vanderbilt for the winter.

Mr. and Mrs. Malcolm D. Sloane are in town from their country place at Port Washington and are at the Ambassador Hotel.

Mr. and Mrs. Martin Vogel have returned from Asheville, N. C., and are at the Hotel Plaza.

Mr. and Mrs. Walter Phelps Bliss and their daughter, Miss Katherine and Miss Sibyl Bliss, who passed her summer at Bernardsville, N. J., are at the Hotel Plaza.

Miss Betty Gilbert, daughter of Mrs. C. P. Dugmore, will depart this week for California, to pass a short time with her sister, Mrs. Howard P. Renwick.

Mrs. William H. Sage has arrived in the city from Albany and is at the St. Regis.

Mr. and Mrs. John E. Cowdin are at the Plaza for this week from Tuxedo Park.

Mrs. Miller Graves will give a dinner to-night at her new home, 50 East Ninety-second Street. Afterward she will take her guests to the Bijou Theater.

Mrs. Edgar B. Condon has arrived in the city from Bernardsville, N. J., and is at the St. Regis.

Mrs. Benjamin Webb Frazier is in the city from Philadelphia and is staying at the Lorraine.

Mrs. William T. Hildrup Jr. has returned to the city from the St. Regis for the winter.

Mrs. Rodney W. Williams, of 156 East Seventy-ninth Street, who sailed last Saturday for Europe, will join Mrs. Charles Potter Kling in Paris. She will return to New York at the end of November.

Commodore James and Wife to Winter Here

Close Newport Home Soon; Mrs. Harman Goes South; Mrs. Wents Will Entertain

Special Dispatch to The Tribune

NEWPORT, Oct. 16.—Commodore and Mrs. Arthur Curtis James will leave Beacon Hill House after a busy season and depart in a day or two on their steam yacht Aloha for New York, where they will spend the winter. Preliminary arrangements for closing this big estate were started today, while the Aloha was being put in condition for the trip. Mrs.

Mrs. J. Robinson Duff before her first marriage to Mr. Jules Glensner, Miss Edith Adams. She is a daughter of Mr. and Mrs. Robert Franklin Adams, of 640 Park Avenue.

James, it became known recently, holds the distinction of being the most-traveled woman in the country. She has circumnavigated the globe twenty times, according to a statement she made at the recent meeting of the College Club, when she told of her last trip around the world and as far as she knows, has no competitors for the honor of being the leading woman globe trotter.

Mrs. May Brady Harriman concluded her Newport stay this evening and departed for a trip to Virginia Hot Springs, before going to New York for the winter.

The Misses Reynolds, of Huntington, who arrived yesterday for a short stay, are at the Mueschinger Hotel. Mr. F. Frazier Jelke, of New York, who is registered there, expects to depart to-morrow.

Mrs. and Mrs. John Aspreger, Mr. Beverly Bogert, Miss Evelyn Burden, Mr. Henry B. H. Ripley and Mr. C. M. Bull have returned to New York after spending the week end here.

Mrs. James Griswold Wentz will be a hostess on Thursday when she will entertain at the Newport County Women's Republican Club.

Mr. C. Whitney Carpenter has gone to New York for a few days. Mr. Henry H. Ward has returned there after spending the week end, while Mr. Frank K. Sturgis is expected to leave for New York shortly.

Carnegie Furniture Sent To Roswell Miller Home

Secretary at Lenox Arranging Transfer to Residence of Daughter Here

Special Dispatch to The Tribune

LENOX, Mass., Oct. 16.—When Mrs. Andrew Carnegie was in Lenox two weeks ago she designated certain furniture that she wished shipped to her New York home of her daughter, Mrs. Roswell Miller, on Ninetieth Street.

This is now being moved in motor vans under the direction of her secretary, Mr. Archibald C. Barrow, who with Mrs. Barrow is at the Curtis Hotel.

Mr. and Mrs. Edwin W. Orris, Dr. and Mrs. Samuel Milbank and Mr. and Mrs. Herman Le Roy Jones, of New York, are at the Marlborough Hotel in Pittsfield. Several dinners and luncheons that had been arranged for today and to-morrow have been postponed because of the death yesterday of Mrs. John E. Parsons, who for many years had been prominent in the Lenox colony, and who aided numerous local institutions. Mr. and Mrs. Henry Holter Pease have Mr. and Mrs. James Freeman, of Boston, as their guests at Lenox.

Arrivals at the Berkshire Inn, Great Barrington, include Mr. and Mrs. Phelps Montgomery, of New Haven, Conn., and Mr. and Mrs. Eugene H. Outbridge, of New York.

Miss M. Symphora and Miss Grace Bristed are back from Tuxedo, where they were guests of Mr. and Mrs. John Munroe and Mr. and Mrs. George B. St. George.

Mr. and Mrs. William Henry Slocom, of Boston, are guests of Mr. and Mrs. David Ives Mackie at Pinecliff in Great Barrington.

Miss M. Tilden and Mrs. Charles F. Griffin, of New York, were among the last to leave Heston Hall at Stockbridge, which was closed for the season today.

Miss Ellen Bullard and Miss Mary Reynolds, of Boston, are guests of Dr. and Mrs. William Norton Bullard at Highland in Lenox.

Mr. and Mrs. Delano De Windt have Mr. Howard Wentworth, of Boston, as a guest at Great Barrington.

Going on To-day will be found on Page 8

Herter Looms, Inc. 841 Madison Avenue corner 70th St.

Tapestries, Antiques, Reproductions, Lamps, Curtains Materials, etc.

On account of early removal to 19 East 55th Street, we offer selections from our

An exceptional opportunity to purchase choice furnishings as low as auction prices.

Commodore James and Wife to Winter Here

# Jewish Drive Nets \$113,117 On First Day

Philanthropic Societies Aim to Collect Million for Charity; Adolf Lewishohn Is Largest Contributor

Actors Aid in Campaign

Stage, Screen and Society Folk Appear in Exhibition at Hotel Pennsylvania

More than \$113,117 was collected yesterday among the Jewish business men and women of New York to aid the campaign for funds for the Federation of Jewish Philanthropic Societies, it was announced last night at the close of the first day's drive. The quota aimed for is \$1,000,000 to meet the deficit incurred during the months of business depression, when contributions decreased, an official said.

The drive has been divided among thirty leaders, each representing a branch of industry. Subscriptions will be solicited from each of the industries. The bankers' and brokers' division led yesterday's campaign, with a total of \$15,546, while the women's division was next with \$11,700.

Adolf Lewishohn, philanthropist, was the largest contributor. He donated \$10,000 to the drive, with a promise of \$15,000 more if the \$1,000,000 mark was passed. Mr. Lewishohn is actively affiliated with the work of several of the institutions in the federation.

Timber Brothers subscribed \$5,000. F. W. Strauss and Charles Hirsch each gave \$5,000. Harry and Sidney Sachs each contributed \$3,000 and Casimir Strolem donated \$2,000 and Arthur Rothenberg gave \$2,000.

## Exhibit at Pennsylvania

The drive will be continued for the remainder of the week. It will be supplemented by a four-day exhibition, which began yesterday on the ballroom floor of the Hotel Pennsylvania. Stage, screen and society leaders have volunteered their services for the occasion. The main exhibition room is laid off in booths, one for each of the ninety-one organizations supported by the Jewish federation. Dolls dressed by the inmates of the institution show graphically the work of the various societies.

The figures are dressed to represent every age and walk of life. Especially interesting is a group of dolls that show how deaf children are taught to speak with the aid of a mirror. Photographs of scenes in the hospitals and sanatoriums are displayed on the columns.

Special entertainments have been arranged for each afternoon under the direction of Mrs. Henry M. Block, chairman. A tea-garden, opposite the exhibition room, is used by the theater. Musical comedy and vaudeville stars performed yesterday. Barney Bernard gave selections in Jewish dialect.

Dancers and society leaders have volunteered their services for the occasion. The main exhibition room is laid off in booths, one for each of the ninety-one organizations supported by the Jewish federation. Dolls dressed by the inmates of the institution show graphically the work of the various societies.

# New Era in Wireless Heralded By Tubes That Bridged Atlantic

Huge Machinery Replaced by Vacuum Receptacles That Can Be Held in Hand and That Promise New York-to-London Telephone Transmission

By Jack Binns

A new era in the art of communication dawned on Sunday when the vacuum tubes, by means of a dynamo, the scientists therefore were confronted with the necessity of some subterfuge, and the vacuum tube itself was chosen for the purpose. Alternating current was transformed until a pressure of 15,000 volts was attained. Then it was passed through a special type of vacuum tube which has only the filament of a vacuum tube. This tube has the property of acting as a valve, permitting current to flow through it in one direction only and stopping current in the reverse direction. The result is that it has an output of pulsating current flowing in one direction only with a voltage of 15,000, which is placed on the plate circuits of the power vacuum tubes.

The tubes used at Rocky Point on Sunday can be conveniently held in one hand, yet they replaced ponderous machinery which needs a large room to house it. The tube only requires a coil of wire of about 14 in. in order to function, and it will then operate without fatigue, and without being watched. It has no moving parts to get out of order, nor does it require frequent overhauling at frequent intervals.

## Known to All Radio Fans

The vacuum tube is nothing more than the ordinary electric light bulb with special additions. Around the filament inside the glass bulb there is a spiral wire, known as the "grid," and around this grid there is a metal sheath known as the "plate." It is the instrument known as a radio.

Ever since it was first discovered by Lee de Forest, attempts have been made to construct it of sufficient size to handle large amounts of power. For several years, however, this meant a vacuum tube of glass in a joint that would resist wide changes in temperature and still retain the vacuum. The glass remained unbroken for tubes with a greater power than one electric horsepower.

Within the last twelve months this problem has been successfully mastered, and in addition this a means of keeping the tube cool during operation has also been developed successfully. The solution of these two problems was the first step toward bringing about trans-Atlantic communication and power transmission. In order to function properly the vacuum tube needs a very high voltage upon its plate, which must be direct current.

The remarkable feature of the vacuum tube as a means of handling large amounts of power is the fact that it will produce alternating current at any frequency desired up to 300,000 cycles a second. The gigantic alternators used in electrical work will produce the frequency for which they are designed.

It is this remarkable character of the vacuum tube which gives promise of revolutionizing power transmission across the country in the near future.

## 20 Kilowatt Tubes

Prior to the sixteen hour continuous test on Sunday there have been months of quiet, steady experimentation at Rocky Point. The tubes used have been in other words 20 electric kilowatts each. The rectifying vacuum tubes used with them and known as ketrons have an output of 50 kilowatts.

By a coincidence of these 20 kilowatt tubes comes at a moment when the first 100 kilowatt tube has been successfully produced. It is this tube that is expected to bring about the first trans-Atlantic telephone conversation.

The remarkable feature of the vacuum tube as a means of handling large amounts of power is the fact that it will produce alternating current at any frequency desired up to 300,000 cycles a second. The gigantic alternators used in electrical work will produce the frequency for which they are designed.

# Edwin H. Vane, Long Political Boss of Philadelphia, Dead

Attendance at Beside of Sick Daughter While He Was a Convalescent Results in Fatal Relapse

PHILADELPHIA, Oct. 16.—Edwin H. Vane, the second most active of the three brothers who for many years controlled the politics and public works of this city, died this morning at his home at Ambler from edema of the lungs, the climax of a long illness from which he had been suffering for several weeks. It is thought that he might have recovered had he not insisted upon watching day and night at the bedside of his ten-year-old daughter, who is ill with pneumonia. He is survived by his wife, four daughters and a son, and by his younger brother, William S. Vane, Representative in Congress. His elder brother, George A. Vane, formerly a Representative in Congress, died some years ago.

Mr. Vane's parents, Augustus and Abigail (Stites) Vane, came from New Jersey and settled in the "Neck" district of South Philadelphia, where he was born, on July 19, 1862. The three brothers entered the employ of a small contractor for city work. In time they themselves became contractors and ultimately enjoyed a practical monopoly of all city work, from which they amassed great fortunes while the city incurred high taxes and a staggering debt. Their control of municipal politics was even more complete than that of Tammany Hall in New York.

For many years Edwin H. Vane was the business member of the fraternal firm, while his two brothers sought political preferment and power. He never rose above the office of State Senator. But after the death of the eldest brother, George, in 1908, he assumed personal direction of political affairs in the city, and at times sought to dominate them in the State. For a time he worked in co-operation with Boies Penrose and James P. McNichol, but later he broke with them and became a "machine" man.

But in the campaign of 1917 Mr. Vane was charged with complicity in attempted manipulations of the primaries, and even with having furnished money for bringing to Philadelphia professional gamblers whose activities culminated in the shooting of a policeman. He replied by attributing the outbreak of violence to the "vicious system of election thuggery" established by Senator Penrose.

THE REV. JOHN L. ACHESON

The Rev. John L. Acheson, of Milwaukee, who was visiting his brother, the Rev. Robert H. Acheson, of the Palisade United Presbyterian Church, West Hoboken, N. J., died at his brother's home yesterday. Overwork is said to have hastened the clergyman's death. He was 62 years of age.

Mrs. Agnes Edgar Dies

Mrs. Agnes Strahan Edgar, of New York City, died yesterday at her home at 51 East Fifty-eighth Street. She was the wife of the late Newbold Edgar, of the late Bishop Strahan, of Toronto. She is survived by three daughters, Mrs. Edward H. Williams Jr., Mrs. Henry Sanford and Mrs. Stuart Davis. For many years she has been a leader in the social life both here and at the Long Island resort, and her daughters have succeeded to a like position.

Mrs. Edgar had been a member of the Irving House, at Southampton, and in the White Mountains. She was not in good health, but the physicians attending her did not consider her condition serious.

Funeral services will be held at the Church of the Heavenly Rest to-morrow morning.

Hayakawa Dies in Asia

The death in Dairen, Manchuria, of Sen Kichiro Hayakawa, president of the South Manchurian Railway, was made known yesterday in cables received at the road's local office.

Mr. Hayakawa, who was president of the Japanese House of Peers, began his career as a banker and railroad man in the financial service of the Japanese government. He was instrumental in negotiating the first Japanese foreign loan in England in 1898 and had previously handled the Japanese end of the Chinese indemnities arising from the Boxer rebellion.

He resigned from government service in 1900 to become president of the Mitsu Bank in Tokyo and chairman of the Tokyo Bankers' Association. He became president of the South Manchurian Railway in 1921. He was sixty-one years old.

THE REV. F. H. KNIGHT

BOSTON, Oct. 16.—The death here of the Rev. Frederick H. Knight, superintendent of the New England Home for Little Wanderers and formerly president of New Orleans University, became known to-day. Dr. Knight had been a Methodist pastor at Springfield and Salem, as well as in this city.

Birth, Engagement, Marriage, Death and In Memoriam Notices may be telephoned to The Tribune any time up to midnight for insertion in the next day's paper. Telephone Beckman 3000.

## MARRIAGES

YOUNG-BOTTOMLEY—On Saturday, October 14, 1922, at St. Andrew's Church, Southold, Rev. Henry Mott, officiating, the Rev. Henry Mott, daughter of Mr. and Mrs. Benjamin
